Dieter and Jennifer Randolph to Release their First Book, *Branching In: The Journey from Alone to All-One*

(Saint Petersburg, Florida) — **Dieter and Jennifer Randolph**, the hearts and minds behind the popular and inspirational website UnitySociety.com, have released their first book. *Branching In: The Journey from Alone to All-One* (ISBN-13 #978-0692816608) is available immediately through Amazon.com and all other standard outlets. This also marks the first of many print publications from the **Unity Society**.

***Branching In* is a book about having faith, doing good, and letting go.** According to the authors: “Everybody wants to connect. Each person has a desire for an experience of transcendence, love, or a bigger life. Some call that pull evolution, and for some it’s a matter of spiritual development. What if it’s both? The way to embrace the challenge of existence is to see your present material circumstances as finite examples of an infinite nature. We call this exercise **Branching In**, because we are working from many individual manifestations to one timeless Truth. **You don’t need anything extra to be who you already are.** Branching In is the process of understanding the current moment as the fruit of a more profound life experience. We follow it through branch and trunk back to root, and use that expanded awareness as the seed of something new.”

Dieter and Jenny Randolph are here to remind you that God is good, which means that YOU are good. When you know that, it’s your job to do good in the world. They met when they were teenagers, and haven’t left each other’s side since. Along the way they’ve had amazing adventures and life-altering learning opportunities. Dieter and Jenny are still growing up together, and love sharing what they find along the way. In the course of a single year, they got married, started a storefront church, and saw the birth of their first child, all before either of them were old enough to rent a car. In the more than twenty years since then, they haven’t stopped moving. *Branching In* represents the latest step in an ongoing journey.

###

The Unity Society is here to help people express and endorse spiritual integrity in everyday life. We want to help you lead an enthusiastic, awake, joyful, passionate life, because that’s how the world gets changed. We are all in this together.
